ADDITIONAL AMUSEMENT TAX

Largely Attended Meeting of Exhibitors At Toronto Protects Increase—Premier Hepburn Says Money Needed For Relief Purposes.

Mrs. Bonnie K. Moore, proprietress of Moore's Theatre, Grimsby, attended a meeting at Toronto last week of approximately 225 exhibitors from all over the province who assembled at the Royal York Hotel to consider the question of the Hepburn Government's Amusement Tax which becomes effective June 1st. The admission tax program calls for a tax of 20¢ or five cents on each adult ticket of 25 cents, while on children's tickets where admission is 15 cents the tax is two cents.

Up to this time there has been no tax on admission tickets of 25¢ or less.

Admission prices at the local theatre remain as before, the additional payment being for amusement tax only and is effective June 1st.

A committee of exhibitors was named at the meeting to deal with the situation. Allied exhibitors suggested that all theatres close during July and August in protest while it was reported that a petition from theatre patrons was in circulation.

Objection was taken to a 20 per cent tax on 25¢ tickets while that on \$1.00 ticket is but 10 per cent of the admission price.

The Toronto District Trades and Labor Council has taken up the protest and labor leaders have spoken strongly against the increase as a burden on the working classes.

The president of Famous Players Canadian questioned whether the industry could survive the new taxes. According to declarations by Premier Hepburn the tax is to be imposed without reduction or revision of proposed increases.

"The act will be rigidly enforced," he said. "We need the money for relief purposes and we are going to raise it from that source."

The government's plan is to raise an additional \$1,000,000 during the next twelve months as compared with \$8,000,000 which was the total revenue from the amusement source in 1934.

Ten Years of Union of United Church in Canada To Be Observed, June 10

The ten years of Union of the United Church of Canada will be observed with prayer and thanksgiving to Almighty God when the United Church marks the passing of its first decade of its existence.

Plans have been made for a mighty celebration in Toronto on the night of June 10, in the Maple Leaf Gardens. A massed choir of 2,000 voices under the direction of Dr. H. A. Fricker will contribute a musical program of sacred music. The Scripture lesson will be read by Lieutenant-Governor H. A. Bruce, and an address will be delivered by the Rev. Dr. Richard Roberts, Moderator. Pageantry will tell the story of the ten years since Premier R. B. Bennett became a united nation to attend. On a trans-Canada hook-up the program will go to numbers of the United Church over thirty-six radio stations between 9 and 10 p.m. Already the seating capacity of the great auditorium has been booked with response coming from Vancouver to Halifax.

Not only in Canada will the tenth anniversary of the union be observed but in Newfoundland, Bermuda, Norway, India, Japan, Africa, Trinidad and wherever the mission work of the church extends the plans for the celebration have been taken up with interest. An objective of \$250,000 has been set as a special offering on this occasion, a tangible expression of the spirit of the celebration.

Grimshy Given High Rating For Its Water

The May issue of the Canadian Engineer carries the first of an interesting series of data sheets on water works practice compiled by no less an authority than Dr. A. E. Berry of the Provincial Department of Health and Secretary of the Canadian Section American Water Works Association.

Grimshy is one of seventy-three centres in Ontario which is given a high rating in the data sheets, thus indicating once again that Grimshy should be justly proud of its Water Works System and the high quality of water supplied to all users.

Co-operation of Mrs. Moore Appreciated By The Veterans

Grimshy, May 29th, 1935.

To all Veterans of Grimsby and Vicinity:

Dear Comrades:

Mrs. Bonnie K. Moore, proprietress of Moore's Theatre, Grimsby, attended a meeting at Toronto last week of approximately 225 exhibitors from all over the province who assembled at the Royal York Hotel to consider the question of the Hepburn Government's Amusement Tax which becomes effective June 1st. The admission tax program calls for a tax of 20¢ or five cents on each adult ticket of 25 cents, while on children's tickets where admission is 15 cents the tax is two cents.

Grimshy is one of seventy-three centres in Ontario which is given a high rating in the data sheets, thus indicating once again that Grimshy should be justly proud of its Water Works System and the high quality of water supplied to all users.

"ADOPT A BABY WEEK" IN PROGRESS

Practically All Infants In Care of Children's Aid Society of County Placed in Homes For Adoption — Boys of School Age Available.

The Children's Aid Society of the County of Lincoln and City of St. Catharines is having splendid results from "Adopt A Baby Week" as inaugurated by Hon. David Croll, Minister of Public Welfare. Practically all infants in care of the Society have been placed in desirable homes for adoption. There are, however, at the Children's Shelter in St. Catharines, several boys of school age whom the Society are desirous of placing in free foster or adoptive homes. These boys will make splendid companions for anyone and splendid citizens if they have the opportunity of a normal family training.

For information write or phone N. Fugger, Local Superintendent, County Buildings, St. Catharines.

Adopt A Baby Week is being observed May 27th to June 1st, and the response has been general throughout the province. Matching the requests of prospective adoptive parents with children scattered in 58 institutions over Ontario is one of the problems the available supply of variegated becoming more complicated with the daily increasing volume of inquiries and applications pouring into the Department of Welfare.

Every effort of the Children's Aid Branch at the Parliament Buildings is being bent to reconcile the desire expressed in the stream of letters with the children available for adoption, no matter how at variance the geographical location of the adoptive parents and the child may be.

"We could almost use a clearing house to meet the requests for children for adoption in response to the appeal" said Hon. David Croll. "But lacking that, the department itself is acting as the clearing house. When we get requests for children of a particular size, sex, and appearance we will canvass the whole field of shelters to find the child most closely approximating it. When local Children's Aid shelters cannot meet the desire and they communicate with us we will circumscribe all the shelters to find the right child for the right parents." In other words, the Minister intimated, so far as this campaign to "trade shelters for homes" is concerned the local Children's Aid are not air tight compartments and the children to be adopted only by people in that locality.

There is a vast spread in the number of children available for adoption in the different sections of the Province. While one Children's Aid reports 122 children available, another has only three. Although the children are not shifted from one to another of these institutions to equalize the number or adjust the supply to requests for adoption, every effort is being made by the exchange of information through the department to meet the desires of the applicants and to find the children happy homes.

On their return they will reside in Fulton.

JACKSON—GOODMAN

A charming wedding was solemnized in the Old Stone church, Fulton, on Friday, May 24th, when Marjorie Grace, elder daughter of Mr. and Mrs. T. Goodman of Niagara Falls, Ontario, was united in marriage to Hugh Grant, second son of Mr. and Mrs. Herman Jackson of Fulton. Rev. Mr. Landy officiated and the wedding music was played by Mrs. L. A. Broomey of Grimsby. The young bride looked lovely in a gown of pale blue taffeta and tulip hat and shoes to match and carried a bouquet of pink carnations and forget-me-nots.

The bridesmaids were Misses Harriet Jackson, sister of the groom and Miss Winifred Abel of Niagara Falls, Ontario, each gowned in pink organdy and carrying pink tulips and sweet peas.

The groom was attended by his brother, Mr. Ross Jackson, and the ushers were Mr. Murray Jackson and Mr. Donald McDougall. After a reception at the home of the groom's parents at Fulton the young couple left by motor for Chicago, the bride travelling in a blue swaggy suit with accessories to match.

On their return they will reside in Fulton.

CAR SNAPS OFF HYDRO POLE—TRAFFIC HELD UP

When a hit-and-run driver, whose car swerved off the highway, four miles west of Grimsby, snapped off a Hydro pole in two places, carrying high-tension wires and a transformer, traffic was held up for over a mile till Hydro workers could cut off the power to remove the live wires lying across the highway.

The driver left his identity in the form of the front license plate of his car which was torn off in the crash. On investigation the license plate was found to belong to a car owned by Martin Parker, aged 42 years, of Brantford. According to report, Parker allegedly told police that he was unaware his car had hit anything like a pole as he felt no shock.

Charges are being laid against Parker by Provincial police.

Card Of Thanks

We desire to thank our friends and neighbors for the sympathy and kindnes extended during our recent bereavement, also for the beautiful floral bouquet and to those who so kindly loaned ours.

Mrs. F. E. St. John and Son.

Nina Woolverton Memorial Window To Be Unveiled

The Nina Woolverton Memorial Window will be dedicated at Evensong Sunday, June 2nd, in St. Andrew's church.

Mr. Congreve of Toronto will unveil the window.

It was hoped that Canon Hewitt of Hamilton, a life-long friend of the late Miss Woolverton, would preach the sermon at the dedication, but he will not be able to be present in the evening.

Canon Hewitt, however, will preach in the morning at the 11 o'clock service.

Sheep Dipping In Lincoln County

The county sheep dipping drive will commence on Thursday, dates set for the various towns are: El. Smith, St. Catharines, R.R.1, Thursday, May 30, starting at 8:30 daylight saving time; Raymond Comfort, St. Anna, R.R. No. 1, Friday, May 31; Sheld Brook, Caledon Centre No. 2, Monday, June 3rd; Herb Copeland, Smithville, No. 2, Tuesday, June 4; John Dunn, Galator Centre No. 2, Tuesday, June 4th; C. A. Springfield, Caledon Centre No. 1, Wednesday, June 5th; Willard Brook, Smithville, No. 2, Friday, June 7th. With the exception of the first day dipping will start at 9 o'clock standard time. Livestock experts agree that every sheep and lamb should be dipped at least once a year. There are close to 100 sheep breeders in Lincoln County.

At a meeting held last week, Mr. David Biggar was re-elected president.

The installation of officers for the coming year was presided over by Rev. J. A. Ballard, following which the speaker of the evening, Mr. Reg. Green, was introduced. A most impressive address on "A.Y.P.A. Ideals" was listened to with much interest.

During the evening several musical numbers added to the enjoyment of the evening.

THE REMARKABLE ROMANCE OF AN INDUSTRIAL DICTATOR

Velvet and Steel By PEARL BELLAIRS

SYDNEY
Joan Denby of humble origin, is in England as a social equal of Miss Georgina of Portofino, rather than as her secretary. She wants Piero Bannister, millionaire, who forces his attentions on her. Lord Edwards proposes to Joan.

"Really?" said Joan, wondering if Piero said this to make her uncomfortable and change colour.

"Poor Edward! He had a frightful time! On the way home we nearly sank the ship a second time, coming through the Bay. All the crew, as a matter of fact, wanted to put it at Gibraltar, because the weather reports of the Atlantic were so alarming. But I didn't want to hang about. There was nearly a mutiny, and Edward was foremost among the mutineers. But I persuaded them, and on we came."

"At the risk of their lives?" said Joan quietly.

He met her eyes steadily while he stood with his back to the heart, as though he meant to withstand her ill opinion. His glance took in the simplicity of her navy blue frock with white linen collar and cuffs, and he remarked drily:

"You've changed. But the expression of aversion when you look at me is just the same!" With a sigh and a laugh he added thoughtfully: "I wonder—will that ever change?"

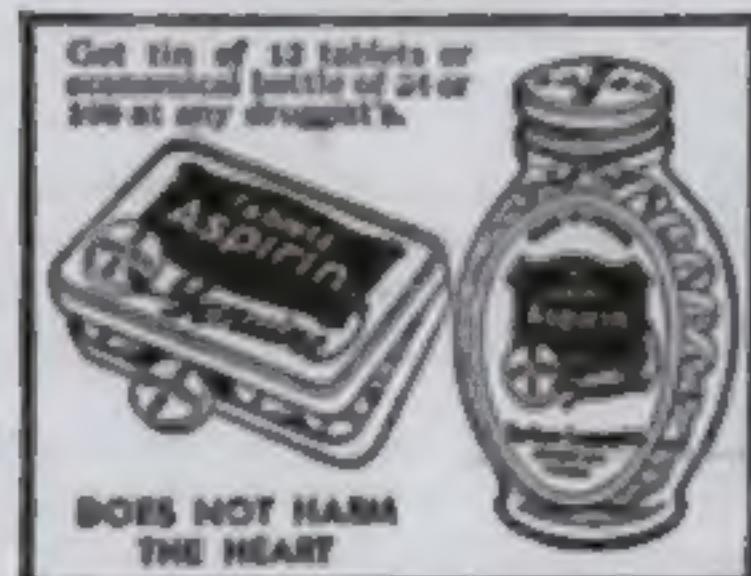

"Surely we know fairly well how we regard one another," said Joan, smiling.

"Do we?" he said. "You know then, how I regard you!"

Hitting at the tea table, Joan declined to reply.

"I wonder—have you any idea?" He said, and his tone was so altered, so softly imperative that she was startled. Abruptly he pushed forward a low chair from the fireside, pushed it forward to within a few feet of her, and sat down in it. Started by having him so near, at facing him at

TO BE SURE YOU GET Fast Relief

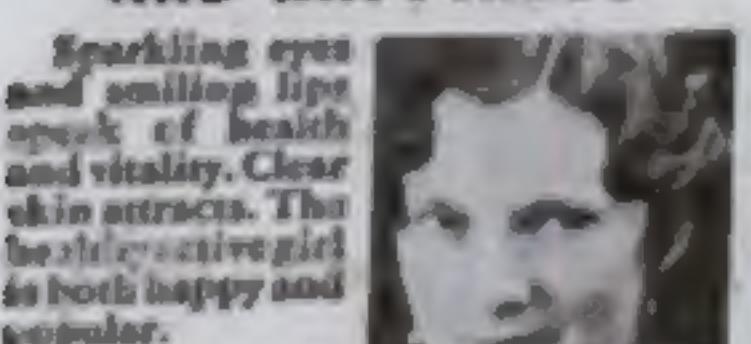

An Aspirin tablet starts dissolving as soon as it touches moisture. That means that Aspirin starts "taking hold" . . . eases even a bad headache, neuritis or rheumatic pain almost instantly. And Aspirin is safe. Doctors prescribe it. For Aspirin does not harm the heart.

Be sure to look for the name Boyer in the form of a cross on every Aspirin tablet. Aspirin is made in Canada and all druggists have it.

HEALTH MEANS CHARM AND HAPPINESS

Perhaps you are not really ill yet when the day's work is done you are too tired to enter into the good times that other women enjoy. For extra energy, try Lydia E. Phillips' Vegetable Compound. It tones up your general health. Gives you more pep—more charm.

Remember that 98 out of 100 women report benefits. Let it help you too!

Are Proud Of Penitentiaries

English Judge Says Jails And Courts Attract Visitors

London, Eng.—People are proud of their penitentiaries, according to Mr. Justice Sir R. G. Swift, one of the judges of the King's Bench. The judge was giving evidence before the Royal Commission on the despatch of business at common law.

"Nothing has created greater indignation in some parts of the country than the closing of jails," declared the judge. "No one would think that they wanted a jail in their midst, but I know several towns which were highly indignant that their prisons should be taken away. Prisons bring people into town as visitors, to see it, and the same thing applies to the holding of assizes."

On the question of retirement of High Court judges, Mr. Justice Swift, who is just 60 years of age, said: "No retiring age should be fixed. I speak without prejudice because I have almost reached the time when I am entitled to retire, and I am considerably below any retiring age which is likely to be fixed. If a judge is competent to do his work, I can see no reason why he should not go on doing it. Ample power is already vested in the Lord Chancellor to rid of anybody who by age or incompetency should be relieved of his judicial responsibilities."

Saved by the Modern Nose

Picture the consequences if the powers of smell which once belonged to the human race were restored. There can be no civilization without smells. To warm ourselves we burn coal and other fuel, producing smoke which we do not notice, though our noses were perfect they would be lost to us. In our houses there must always be tiny escapes of gas, which luckily our modern noses do not detect. Nor are they offended by the smell of the wool or cotton of which clothes are made, or the leather of our footwear, or the thousand and one other odours which would become intolerable.

Smiling challenge of the suggestion, though her eyes were intense, "I couldn't possibly!"

"Hate me—want to hit me in the face again?" he quipped.

"Oh, don't be absurd!" said Joan, getting up and walking to the writing shelf. He followed her and stood facing her across it.

"I'm not used to being thwarted!" he said warningly, and his face was steel hard.

WHAT DOES Your HANDWRITING REVEAL?

All Rights Reserved

Geoffrey St. Clair
Graphologist

(Editor's Note: Many of our readers have already obtained a character study from their handwriting. Have YOU? The revelations will certainly interest you and may surprise you. The author removes his invitation to readers following this week's article.)

I have another letter this week from a young lady—who is 21 years of age—who says she has fallen in love with a married man, and to give him across it. The remark goes home!

"I'm sorry," she said, and looked for him to go.

But now her eyes mocked her again; his face demanded compliance to his will.

"I suppose you still loathe me?"

"Not exactly," said Joan, "at once when he looked like that, her aversion for him gripped her again.

"Marry me!" he said, making a

Her own handwriting shows that she is very affectionate and of a markedly sympathetic nature. She responds very readily to emotional influences, and I have no doubt that it was, in the first place at least, this eager readiness to sympathize with others that led her into her present attachment.

However, she also sent me some of the writing of the man in question, also that of the man's wife. And from my inspection of all three writings I cannot but come to the conclusion that this girl is making a very grave mistake.

Apart altogether from the moral angles to this question, the willing tell me that this is the case. Both the man and his wife are of the self-same type. They look after their own interests first and last. I would say that the man and his wife are well-suited.

But I cannot say the same thing about the girl who writes to me and the man. I do not think that the man is seriously in love with her. He may be infatuated with her, but I suggest that, if the girl insists on his getting a divorce in order that they can be married, she will find that what I say is merely the truth.

He is interested in her for the moment, but has no sincere desire to rule his present conditions of life and marriage.

So I say to the girl who wrote me, in all sincerity, that she is far too good to take the chance of ruining her life for the sake of the man. Give him up. You will find happiness in other directions and in a more permanent manner.

I have a letter from a lady who signs herself A.M., and the postmark on the letter was Edmonton. I would like this lady to write me again and please enclose her full address so that I may write to her confidentially.

Not all the problems with which this well-known author has to deal are given in these articles. There are many that are too confidential to be included and in all case, Mr. St. Clair is able to help sincerely and without bias. Would YOU like his help? Have you any friends whose true characters you would like to know? Or do you have any wish to find out what YOUR handwriting tells about yourself? Send specimens of the writings you wish analyzed, stating birthday in each case. Enclose 10c coin for each specimen, and inclose with 3x stamped addressed envelope, to: Geoffrey St. Clair, Room 42, 73 Yonge Street West, Toronto, Ont. Letters will be answered quickly as possible, and letters will be confidential.

Issue No. 21.—'35

GULF STREAM FALLACIES

It Flows On Like A Real River, According To Long Study

The maps give a poor conception of the Gulf Stream. They were made primarily to help navigators, who are not keenly interested in what goes on below the surface of the water.

As the years have passed, those who make the earth's special study have been more and more impressed by the theory of the Danish geographer, Nielsen, that the Gulf Stream flows like a real river, and this is without either diffusing much into the Gulf of Mexico or receiving much water from the Gulf. To test this view Yale University sent the schooner Mabel Taylor to the Gulf of Mexico in 1932. Instructions to the scientists on board: Determine the salinity of the Gulf streams at various points and find how it flows as a body. Give the world a three-dimensional picture of the Gulf Stream. Illuminate the chemistry of the Stream.

STUDYING THE CURRENT

At last week's meeting of the National Geophysical Union in Washington Professor A. E. Parr of Yale gave an account of the Mabel Taylor's findings. The schooner spent all of her time in the Caribbean current, which passes north from the Caribbean Sea through the Yucatan Channel, and in the Florida current which flows through the Florida Straits. Thus was the problem of inflow and outflow studied—the masses and kind of water that enter the Gulf of Mexico from the Yucatan Channel and that leave it through the Florida Straits.

It turns out that Nielsen is right. The Gulf of Mexico is saltier at the surface than the Caribbean current—exactly the opposite of what was supposed. The Caribbean current sweeps straight from the Yucatan Channel to Florida. Below the surface there is some Caribbean water which mixes itself in the Gulf, but the so-called Gulf Stream is about as independent of the Gulf of Mexico as the Mississippi River.

Big Game Season
Reduced To 11 Days

Halifax.—Big Game hunters in Nova Scotia this year will have only 11 days in the woods. Third reading was given to a bill in the Legislature recently limiting the hunting season for moose, deer and caribou to the period between October 20 and October 31.

Gladiolus Popular In The Dominion

In The Dominion

Canada certainly does not starve its people if we may judge by its recorded consumption. In 1933 we ate, per capita, 180.09 pounds of meat, 10.68 pounds of poultry, 20.4 pounds of butter, 8.26 pounds of cheese and 257 eggs. The meat bill was as follows: pork, 74.58 lbs.; beef, 56.58 pounds; and mutton and lamb, 6.22 pounds.

There is a ritual of tea-drinking in China, as there has been for thousands of years about every detail in the taking of nourishment, though the foreigner never learns more of it than not to touch the cup till the business of the interview is ended.

Drinking tea is a fine art in China. The late Lord Li Chingfong, when minister in London 25 years ago, objected to the custom of putting the saucer under the cup, whereas the Chinese put it on top. In China tea leaves and beverage are served together in a little bowl, into the top of which the saucer fits. Gripping the bowl with thumb and outer fingers, with the middle and first finger, you adjust the saucer to hold back the leaves as the liquid flows out.

Brick-tea is made mostly for Kuan-shan and Mengolian consumption. The leaves are dampened and compressed into blocks about ten inches square to one inch thick.

Hard as a stone and almost indestructible, they travel all over Asia on a camel; when you want a glass of tea, you chip off a bit with a knife, as the old-time traveller in China, cuts it from his silver "shoe" to weigh against purchases.

Tea was known 3,000 years B.C., and though by the thirteenth century it was a universal drink in China it was not until nearly 400 years later that Europe began to hear of tea through the Portuguese and the Dutch. The first Englishman to mention tea was a Mr. Wickman in 1615. He wrote from Japan to a friend asking for three silver porringer in which to drink tea.

Tea was first sold publicly in England in 1657. It fetched from fifteen to fifty shillings a pound in the leaf. It was also sold in liquid form, made, as the vendor said, according to the directions of the most knowing merchants and travellers in the East.

In 1711 the "Spectator" recommended all well-regulated families when set apart every morning an hour for tea, to order the newspaper to be punctually served up and to be looked upon as part of the tea service.

HOW TO WIN

Go to your druggist or department stores and buy RIT Dye "Creme," 1½-3 lbs. 25¢. This will go in a container of 20 words or less, why you prefer RIT—1,000 pairs of Monarch Debutante full-fashioned—shadow-free pure silk stockings—ladies' Spring shades—guaranteed \$1.00 value—will be given as prizes to 1,000 contestants. There are dozens of reasons why you will prefer RIT. RIT comes in 33 basic brilliant colors, from which can be produced over 300 of the various shades.

FAST COLORS WITHOUT BOILING!

Only RIT offers this advantage! RIT is the modern dye of dynamism and power—for permanent color, for "surface dyes" because it contains a powerful ingredient that sets the color fast in dyed, set fabrics and lasts longer. Hold every shade.

"An angel is a person who has conquered self and risen to high levels of character. No person can be endowed with virtue or holiness." —Edwin Markham.

Why at 40 You Think You're "Growing Old"

It's Frequently Just an "Aha," Not "Old Age." And According to Scientists, May Be Something No More Alarming Than A Touch Of Acid Stomach.

At about 40, many people think they're "growing old." They're tired a lot. Have headaches. Stomach upsets. Diarrhea. Nausea.

Well, scientists say the cause, in a great many cases, is merely an acid condition of the stomach. The thing to do is simply to neutralize the excess stomach acidity.

When you have one of these acid stomach attacks, all you do is take Phillips' Milk of Magnesia after meals and before going to bed.

Try this. You'll feel like a new person. Take either the familiar liquid "PHILLIPS'" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

Also in Tablet Form!

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores and in leading health food stores. In the preparation of these tablets, the finest Phillips' Milk of Magnesia is used.

Phillips' Milk of Magnesia Tablets are the best way to keep your acid stomach under control.

Phillips' Milk of Magnesia Tablets are the best way to keep your acid stomach under control.

Our Sketch Club

BLENDED TONE DRAWING

LESSON NO. 85

Last week we studied a Three Tone Drawing in flat tones. Now we take up the blending of tones. Let us study Fig. No. 185. It has a black background. White lettering. High light on the iris of the eyes. Light on the forehead and the lightest portions of the cheeks, and a blending from this light tone down to solid black. (Refer to the scale of tones in Figures 185 and 186.)

The original drawing of Fig. 185 was made with ink by pen and brush. The latter to paint in the solid blacks, and the pen to outline the letters and the pen point to stipple the dots and also to blend the dots into the solid black. The stipple effect may be also obtained by the use of a crayon pencil on a medium grained surfaced paper.

After you have made a copy of this "Motor" design six inches wide, either with the pen or crayon, try a wash drawing. If you decide on using Transparent Wash you will need one brush to float the washes, and another clean, damp brush to blend the tones of washes.

Your work this week will call for an original design, first in pen or crayon, then in wash. This latter work will be known as Ex. No. 85.

FIG. 185

Now let us consider another common error made by commercial artists, viz: overlooking the "Merchandise Sense." For instance suppose you were going to illustrate a popular garment for a clothing manufacturer. The composition to be an interior of a living room, showing the table, the lights, the mantel, the doorway, etc., somewhere in this composition you will insert the figure of a man. But where is your merchandising? You will notice that you have not illustrated clothing in the merchandising sense. You have lost a little atmosphere of quality there. But what about clothing, your merchandise you are trying to sell is all swallowed up by its beautiful setting. Your final result would lack merchandising sense. Now let us change this composition by placing it in the foreground the figure, make it dominate your whole composition and let other features work as minor accessories, then you would convey all that you had in your first picture, plus the merchandising sense.

Let us consider another composition illustrating a very popular brand of ham. This time we illustrate a family seated at the table in the dining room. The family reflects the spirit of pleasure and satisfaction, on their faces. We just know they are eating this particular brand of ham which we are

carrying; but where is the merchandising sense? Again this most important feature has been neglected, otherwise the drawing is excellent. We will leave the composition as it is but in order to create atmosphere and emphasize the product we are selling, let me try an enlargement of a big juicy ham in the foreground and don't forget to bring out the label featuring the brand name. In other words we will let the ham talk itself, and merely use the original background as a setting to add flavor to the ham idea.

You will appreciate both of these practical examples as crude word pictures, to start your mind thinking along practical channels of art application. You will learn the fundamentals of art throughout your study in these weekly lessons, but bear in mind it is the commercializing of these fundamentals that will greatly increase your progress and thus you will profit as a commercial designer. You will also find that your efforts as a commercial artist become more and more interesting and valuable as you "Sense" the advertising requirements of commercial art.

Questions will be answered in this department. Anyone wishing to receive a personal reply may have same K-3c stamped, addressed envelope enclosed with the request. The Art Director, Our Sketch Club, 73 Adelaide Street West, Toronto.

New Archbishop Installed

Monsignor Arthur Hinsley, new archbishop of Westminster, pictured blessing the crowd from the balcony of the Cathedral, following his enthronement. The ceremonies were attended by high Roman Catholic clergy and laity, and the diplomatic corps.

Escapes Sea Horror

Joe Prentiss, of San Jose, Cal., shown with 60-pound octopus which nearly dragged him below water while he was abalone hunting. His father beat monster to death with a tire iron.

New Governor-General Of Canada Feted In London

John Buchan, the new Governor General of Canada, pictured during an address he made at a luncheon given in his honor by the Association of American Correspondents in London, recently.

Returns To Hollywood

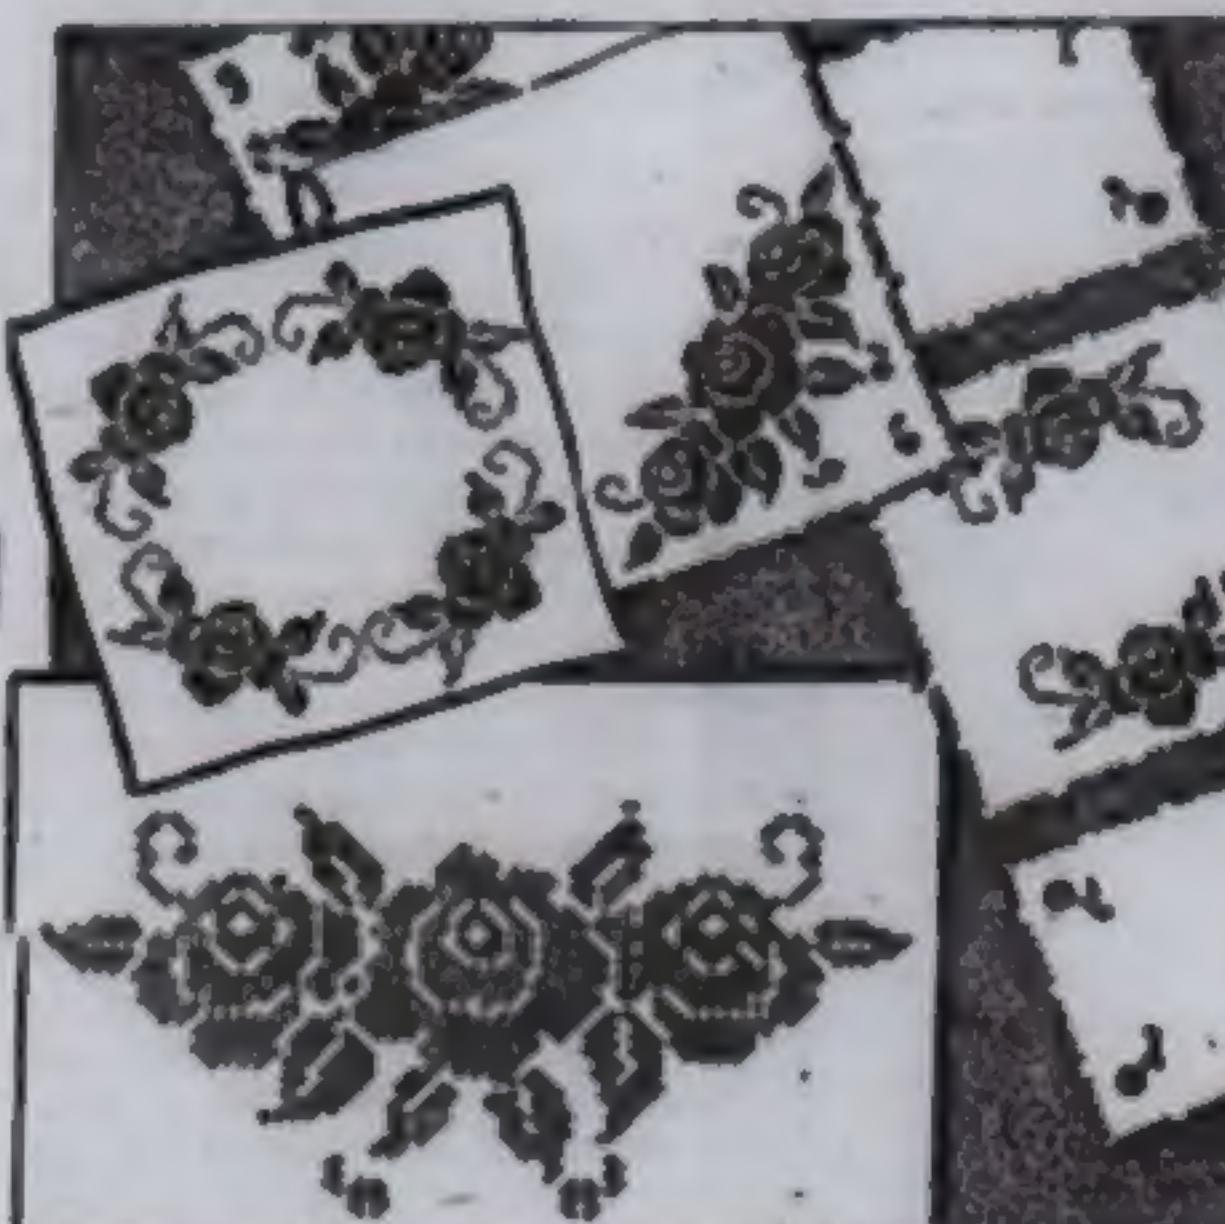

Philip Holmes, well-known motion picture actor, pictured as he greets the New York skyline as he returns after filling an eight-month engagement in England. He was greeted by his father, Taylor Holmes, who went abroad to meet him. He is en route to Hollywood.

29

Miss Diana Sykes-Menzell, daughter of Sir John Sykes-Menzell, first Lord of the Admiralty, was married at St. Margaret's Church, London, recently, to Major Alan Stuart Casey. This picture shows the bride and groom after the ceremony.

Let Your Linens Bloom in Laura Wheeler Cross Stitch Roses

CROSS STITCH ROSES PATTERN 794

Roses in cross-stitch—and they're six to the inch crosses at that—glowing in shades of pink, yellow or apricot, against leaves of green or black! Can't you see just how lovely they'll look and how they'll brighten your home for Spring? You can make a charming tea or table cloth by arranging the larger motifs across the corners and forming a wreath of the smaller ones in the center. But then, there are many ways of using the motifs and a great variety of linens to use them on, all told in the pattern.

Pattern 794 comes to you with a transfer pattern of four motifs $\frac{1}{2}$ inches square, four motifs $4 \times 7\frac{1}{2}$ inches and a quantity of small buds; suggestions for their uses; material requirements; color suggestions; illustrations of all stitched used.

Send 25c in stamps or coin (coin preferred) for this pattern to Needlecraft Dept., Wilson Publishing Co., 73 Adelaide St. West, Toronto.

Royal Reward

The Prince of Wales is pictured as he shakes hands with a member of the Sheffield football team which won the Football Association Cup at Wembley Stadium, London, recently. The Prince presented the cup and congratulated team members.

Daughter Of British Admiral Married

Miss Diana Sykes-Menzell, daughter of Sir John Sykes-Menzell, first Lord of the Admiralty, was married at St. Margaret's Church, London, recently, to Major Alan Stuart Casey. This picture shows the bride and groom after the ceremony.

STAGE YOUR FACE FOR NEW STYLES

There Are New Things In Make-up That You Should Try

You've changed your hat, your shoes, your dress. You're all ready for the dawn of sunny spring days—but are you? What about your face? It needs a change too—perhaps a touch of blue iridescent eyeshadow to match the navy of your hat or suit. You will be surprised to see how a new makeup will lift up your whole face, give your whole ensemble more radiance. They're doing all kinds of new little things in makeup that you ought to try.

There are two rules to remember in makeup for spring. The well-dressed face will wear a smart, subtle, natural makeup during the daytime; a glamorous, extremely feminine makeup after dark. This comes from an internationally known beauty authority who has just returned from Paris where she helped Parc Court couturiers stage faces for the new Spring clothes.

Just before the spring openings, Lanvin, Lelong, Molyneux, Talbot—all besieged her with questions on makeup. What shall we do for spring?" they demanded. "We must have a new makeup ensemble to accent the faille styles." So, to complete the spring fashion picture, this beauty authority created a new Terra Cotta makeup—a warm, mellow, supremely natural shade. It combines the tone of a mellow brick with a dash of bronze and a pinch of gold. The powder gives the face a soft, health look. The rouge and lipstick give a subtle, natural allure.

FOR EVENING

But for evening, faces must be suddenly transformed into bewitching affairs, to do justice to the Hindoo mode, to the sheer lace nets, chiffons and organdies. Makeup should not be a mask for the skin, but should be like the transparent materials, a shimmering veil of glamour to emphasize the loveliness of the complexion. Try a delicate mauve shade of powder that gives an ethereal tone to the skin without a heavy rouge and lustrous lipstick in a new evening shade that is a heavenly golden-red. And try one of the transparent gold or silvery eye-shadows to be different and exciting.

Here's a new trick in evening makeup for brunettes only. After you have made up your eyes, run your mascara brush lightly all around your hair line to emphasize it. This will remove all flecks of powder, and will add just that exquisite detail of grooming which makes for perfection.

Although makeup must be supremely natural for daytime wear, don't try to blend it in with your costume. Make it a highlight. Make it a means of staging your face and your frock! Thus, if you are wearing one of the pastels, your makeup must be strongly outlined, in contrast with a dark tone of powder, and if you are wearing one of the dark frocks, your makeup should be fragile and delicate in tone, to dramatize the gown.

A GOOD TIP

Here is another makeup secret in vogue this season. To make your face as smooth as marble and keep it that way through day and evening, use not one, but two powder foundations. You do it this way: First, apply a semi-liquid foundation, such as cream of lilies. Then put on your rouge and be sure to blend it carefully so that no harsh edges show. Then over both rouge and foundation apply a water lily liquid known as *trans*. You'll be amazed to see how fine-textured your skin looks.

Above all, complexions must be clear, free from all sallowness and dullness if you are to look perfect in the Spring parade. At this time of the year, many skins are weather-beaten, dry, lifeless from wintry winds and steam-heated apartments. One beauty authority has designed an excellent three-in-one tonic Spring treatment to restore the complexion to normalcy and radiance.

Figure This Out

A man walked into a drug store one afternoon and purchased certain items amounting to a total of \$6.00. He handed the druggist a twenty dollar bill.

Unable at the time to make correct change the druggist went to a next-door restaurant, secured the change and came back and handed the customer \$14.00.

An hour or so later, the restaurant proprietor returned the twenty dollar bill because he had discovered it was counterfeit. The druggist took the counterfeit bill and gave the restaurateur man a real twenty dollar bill. How much did the druggist lose on the transaction?

Figure this out for yourself but don't jump at conclusions—it is not as easy as it looks. Some day you may be up against a similar transaction!

TOWN of GRIMSBY

I am instructed by the Municipal Council of the Town of Grimsby to offer for sale the properties listed below. Offers for all or any of these properties should be addressed to the undersigned.

Dated this 1st day of May, 1935.

G. O. BOURNE,
Town Clerk, Grimsby, Ontario.

WARD I—FAIRVIEW ROAD, E.S.

Parcel No. Description

- 1 Lot 8, 10, Lakeview Gardens, Plan 143, 1/4 acre.

THEAL BROS GROCERIES
EDWARD E. GROCERY CURED MEATS

Local Items of Interest

The regular meeting of the Grimsby Water Commission was held last week when routine business was transacted.

Chief Denill has in his possession a child's wagon and a pair of glasses which have been found. The owners can have same by applying to him.

The choir of St. Andrew's Church together with other choirs of the clergy of Lincoln and Welland, attended an Ascensiontide Service at Niagara-on-the-Lake on Wednesday evening.

The last monthly bridge of Lincoln Loyalist Chapter, I.O.D.E., will be held in the club rooms on Monday evening, June 3rd. It will take the form of an open meeting beginning at 7:45.

About a dozen members of the Beamsville Boy Scout Troop hiked to Grimsby Point on Friday morning and camped there on Saturday and Sunday under the leadership of A. S. M. Miller Potter.

The new fire truck for the Fire Department, the purchase of which was authorized recently by the council of the municipality of Grimsby and North Grimsby, is expected to arrive sometime next month.

The Court of Revision for the town of Grimsby will be held on Thursday next, June 6th, at 8 p.m., daylight saving time, when appeals against assessment will be heard. The Township Court of Revision will be held on Saturday, June 8th, at 1:30 (D.E.T.).

Rev. E. A. Barthman, minister of Trinity United Church, left on Monday to attend the sessions of the Hamilton Conference of the United Church being held in Chalmers United church, Guelph, this week. He was accompanied by Mrs. Barthman.

Grimsby Fire Department was called to a bush fire on Monday afternoon on the mountainside in the Tait and Rutherford properties at the head of St. Andrew's Avenue. The flames had made good headway before neighbors realized it was anything more than a burning brush pile. Death was almost instantaneous.

Decomposition was about 45 years of age and unmarried. He had no relatives in the vicinity so far as is known.

Dr. H. R. McDonald, of Kildare, was summoned and pronounced life extinct. An inquest into the tragedy has been ordered.

Gainsboro & Smithville S. S. Assn. Holds Its Annual Convention

The 30th Sunday school convention of the Gainsboro and Smithville Sabbath School association was held in Bethel United church, May 29th. The devotional exercises were led by Rev. M. T. Walker, Rev. G. Conder and Rev. A. C. Ridd.

Address on Man's Specific Need, The Need of Teaching the English Bible, The Sunday School and Church of To-day and To-morrow, and The Child, the Church and The Christ, were given by Rev. N. R. Ernst, Rev. D. H. Currie, Rev. N. H. Ridd and Rev. J. L. Small.

Rev. Dr. White, provincial representative, was also present, conducting a round-table conference at the afternoon session and giving the closing address of the convention. The church choir was assisted by a male quartette, consisting of William Piper, Delbert Piper, Robert McPherson and Clifford Vaughan. Solos were contributed by Mrs. Gordon Stringer and Mrs. E. P. Headip.

The following officers were elected for the year: C. Harrington, president; Chester Lane, vice-president; Herbert Dawdy, secretary-treasurer; Mrs. William Piper, children's division superintendent; Robert McPherson, boys' superintendent; Mrs. Anna Lynburner, girls' superintendent; Mrs. C. W. L. Lumberton, young people's superintendent; E. W. Tester, adult Bible class superintendent; Mrs. W. J. Anderson, home department superintendent; Rev. D. H. Currie, headship training superintendent; Mrs. Clifford Vaughan, missionary superintendent; Theron Beamer, temperance superintendent.

The following officers were elected for the year: C. Harrington, president; Chester Lane, vice-president; Herbert Dawdy, secretary-treasurer; Mrs. William Piper, children's division superintendent; Robert McPherson, boys' superintendent; Mrs. Anna Lynburner, girls' superintendent; Mrs. C. Currie, headship training superintendent; Mrs. Clifford Vaughan, missionary superintendent; Theron Beamer, temperance superintendent.

DEMANDED \$200 FROM ELDERLY SMITHVILLE FARMER

An elderly farmer in Smithville district recently received a letter through the mail demanding that he have \$2,000 ready in \$5 and \$10 bills, to be mailed in Hamilton, postage stamp and the demand was called upon to pay six cents postage fee. The handwriting in themissive is the only clue which police have to work on. The letter was received some time ago, but the farmer and officials kept the incident quiet. No further demand has been received.

The Management regrets to announce that the Provincial government has enacted a law which provides that effective June 1st, we collect an Amusement Tax from each person entering this theatre. Our admission prices remain the same as before, the additional payment is for Amusement Tax only.

44 MAIN — GRIMSBY

Social and Personal

Miss Edith Phipps spent the half-day and weekend in London.

Mrs. Russell Thiel of Penetanguishene a couple of days this week with Reeve H. G. Mogg and Mrs. Mogg.

Miss Hibin Mould has returned after spending two weeks at Buffalo, Barrie and Toronto.

Mrs. Roland Wimmer of Wingham is spending a few days in Grimsby, the guest of Mr. and Mrs. A. E. Phipps Oak Street.

Miss June Wood, daughter of Rev. and Mrs. Wood, Toronto, spent the weekend at the home of Mr. and Mrs. L. J. Farrell.

Mrs. H. Jennings, St. Andrew's Avenue, underwent an operation at St. Joseph's Hospital last week and is progressing favorably.

Mrs. J. C. Fenland, Livingston Ave., is in the Hamilton General Hospital, having undergone an operation there a few days ago. She is making a satisfactory recovery.

Mrs. and Mrs. H. C. Van Every and Mrs. S. Whiting of Kitchener, spent the holiday at the home of their sister, Mrs. C. E. Dean.

Mrs. Mabel Nelson was hostess at her home in Filton to the Conqueror's class in honor of Mr. Grant Jackson and Miss Marjorie Goodman, whose marriage took place last week. Many of Miss Goodman's friends in Niagara Falls, also entertained in her home.

Mr. John Pearson who has been confined to the hospital in Toronto for the past month as a result of a broken knee cap is sufficiently convalescent to be able to leave that institution and on Thursday last, with Mrs. Pearson, arrived at Grimsby Beach for a stay of a couple of weeks. His many friends will be pleased to learn that he is making a favorable recovery although it will be sometime before he is able to get about as formerly. Mr. Pearson who is president of the Grimsby Beach Cottagers' Association and Mrs. Pearson have been summer residents at the Beach for over fifty years and have been most active in the various organizations which have had a part in bringing about the many improvements made at this popular summer resort during that period.

OBITUARY

Frederick Earl St. John

Frederick Earl St. John, well-known resident of Grimsby, passed away at the Hamilton Sanatorium on Thursday last. The late Mr. St. John was born in this district 41 years ago and was the oldest son of Mr. and Mrs. Marcus St. John of Grimsby.

Decesed joined the Canadian forces during the war but was unable to proceed overseas. He operated a harbor shop here at one time.

Surviving besides his widow are one son, Earl, at home, his parents and two sisters, Mrs. Fraser, Grimsby and Mrs. James Pearcey in West Virginia.

The funeral was held from his residence Depot Street, on Saturday afternoon, Rev. J. A. Ballard officiating. Interment was made in Queen's Lawn Cemetery.

The pallbearers, all veterans of the Great War, were: S. Hunt, A. LePage, T. Warner, G. Brignall, C. Swaine and G. Warner.

Isaac Southward

There passed away a life-long resident of North Grimsby in the person of Isaac Southward, husband of Martha Sweet, at his residence on Wednesday afternoon, May 22nd, following a lingering illness.

Born in North Grimsby 70 years ago, the late Mr. Southward was the youngest son of the late Mr. and Mrs. John Southward. He was a member of St. Andrew's Anglican Church, Grimsby.

He leaves to mourn his passing besides his widow, two sons, Marvin and Melvin at home, two daughters, Mrs. Edward Smith, Grimsby and Mrs. Clifford Young of Chilcott and two brothers, George of Beaminville and William in Pueblo, California.

The funeral, held on Saturday afternoon from his late residence, was largely attended. Rev. J. A. Ballard conducted the services at the home and graveside.

The pallbearers were six nephews of the deceased: Moses, William, Charles, Southward, Alex Southward, William Sweet, Samuel Sweet and Charles Sweet.

Interment was made in St. Andrew's cemetery, Grimsby.

Mrs. William Andrews

The death of Mrs. William R. Andrews, occurred at her home in Penwick, Tuesday, May 21, following a paralytic stroke. Of a kindly disposition, always ready to lend a helping hand, she had endeared herself to a host of friends. She leaves her surviving husband, one son, Fred W. of Cleveland, Ohio; three sisters, Miss Minnie Cline, of Jordan; Mrs. M. Housberger and Mrs. Wesley Moyer, Vineland, and three brothers, James and Henry Cline, of Jordan, and John, of Seattle, Wash. The funeral was held Wednesday afternoon, with interment in St. Catharines.

JUNIOR FARMERS TO MEET

Lincoln County Junior Farmers Association will hold a meeting for election of officers at Hannigan's Camp, Jordan, on Friday, at nine o'clock, daylight saving time. Further information regarding the moonlight excursion will be given and other matters of interest to the Juniors throughout the county will be decided upon. At the same time the county Junior Institute executive and directors will meet at the home of Viola Hannigan, Jordan village. Miss Lulu Rivers will deal with the programme planning for the summer which is to include a clothing project, home garden and canning demonstration, achievement day, and team entry for the C.N.E. At the conclusion of the business meeting a social hour will be spent together by the two groups. Any Juniors in the county interested will be welcomed at the meeting.

DR. R. C. TOPP, V. S.

Graduate of Ontario Veterinary College, Etobicoke, Ontario.

Dr. R. C. Topp, a member of the graduating class of forty from the Ontario Veterinary College of the University of Toronto, has arrived home and taking up the work of his profession in Smithville and district. Dr. Topp graduated with first-class honours and obtained name in each of the four years that he attended the College. He, with one other pup, had charges of the College Hospital during his senior year, and was president of the graduating class.

Dr. Topp has taken up the practice of his profession in Smithville and is resident at his home, where he will be pleased to accept calls, night or day. Modern methods of the treatment of large and small animals, with special attention to pets will be given. Call 24-2, or service will be given and calls by phone to Smithville central will receive prompt attention.

— SOFTBALL —

(By H. H.)

How about three balls pitched and three men out. Just like that; so quick that the fans did not realize the losing was over until the Peach Kings went to bat.

For was the man who performed this operation without bunting an eye?

Home runs were all the rage on Monday night also, and it was just a case of get your ticket for the next ride providing the bases were not full.

Then Fox comes along in another inning with three men on, the man at bat put one in a very dangerous spot and this is where Zimmo stands. He got it and put it to Haak Hill for the put out. This was a snappy piece of work and Fox owes Zimmo a package of juicy fruit for his work.

Manager McBride looks as if he had the rookies placed a little better with Scott on third and Zimmo at short stop.

This, of course, is just our opinion. There is no doubt the Beach team will improve but as good a pitcher as Jim Biggar is he is only human and not many pitchers can stay on the mound for nine innings and pitch consistently the whole nine. He is either weak on the start and tightens up as the game proceeds or he is strong at the start and weakens before the end, but in either case it becomes disastrous. This is another opinion but Art Clark will no doubt improve his team a lot before the end of the season.

Ace Cambrey got one of the many home runs Monday night just to show that he can still hit a ball if he connects right.

Our collections are very poor for the number that attend these games. Some person has put in a quarter the last two games and the executive send him or her their thanks. The only wish of the executive is that others would dig deeper for their entertainment and help the boys in the game who are the only ones that benefit by your support, such as bats, balls, sneakers etc. The fans can feel assured that not one cent is spent where anybody profits from the collections except to keep the game going. Won't you fans just try and bulge the coins a little more.

Back to St. Ann's Friday night.

MONTHLY BUSINESS MEETING OF I.O.D.E. ON MONDAY

The monthly business meeting of the I.O.D.E. was held in the club rooms on Monday, May 27th.

Interesting reports of the Provincial and National conventions were given by the delegates, Mrs. Clinton and Mrs. Pizer.

Plans for the Fashion Show which is being held on June 11th and for the Hope Chest which is being started were discussed.

The June meeting will take the form of a picnic to be held at the Battle Field at Stoney Creek.

Advertising in the Independent and just results.

MAY SESSION OF COUNTY COUNCIL

(Continued from page 1)

Town of Merriton in the matter of their claim for reduction of their Equalized Assessment of the County.

FINANCES

That the account of the County Solicitor for \$300.00 re Lincoln and Hamilton be paid; also the taxes due of the Defendants of \$283.78.

That the Hospital accounts be paid on the O.K. of the Chairman.

That a monthly pay-day be fixed as of the 10th day of each month, when accounts will be paid.

That the Clerk procure enough copies of the parchment sent to His Majesty King George V suitably framed, to supply one for each Public and Separate School situated in the County.

EDUCATION

The Chairman of the Education Committee for the County and the Warden of the County attended the Seventy-Fourth Annual Meeting of the Ontario Educational Association in Toronto on April 22nd, 23rd and 24th, 1935 as delegates from the County of Lincoln.

This Convention under all its many branches was attended by some four thousand delegates from all parts of the Province and covered Public Schools, High Schools, Continuation Schools, Vocational Training and Technical Schools and also the Separate School Trustees Section. The Sections of greatest importance to your delegates as representatives of a County were the County Council Section, The Trustees and Ratepayers Section, the Urban Trustees Section and the Rural Trustees Section. Unfortunately under the present method of arranging the Convention Programme there is a great deal of overlapping in the time set for these meetings and possibly two or even three meetings, at which your delegates should be present, all going on at the same time and in different parts of the University Buildings and so it is impossible for your two delegates to pick up. Further in our estimation the County Council sends two delegates this year and the next year sends two new representatives and the Sessions are so short, that the thread of the previous year's work cannot be picked up. Further in our estimation the Trustees and Ratepayers Department is the really important Section and we believe that this County Council should be prepared to keep in touch and give its support to this Section throughout each year.

In our estimation the County Council Section as it functions at the present time, is of no value and never can be of any value. The reason for this would appear to be, that there is no continuity of attendance. A County Council sends two delegates this year and the next year sends two new representatives and the Sessions are so short, that the thread of the previous year's work cannot be picked up. Further in our estimation the Trustees and Ratepayers Department is the really important Section and we believe that this County Council should be prepared to keep in touch and give its support to this Section throughout each year.

We are fully convinced that this Ontario Education Convention is of as much or perhaps more importance than the Good Roads Convention and were really important constructive work is done therein. However, to derive the full benefit from this Association, it would be necessary as a County to purchase a Membership, Subscribe to the Association Paper and the Chairman of Education at every monthly meeting should bring before

the County Council the items of

the Convention.

In conclusion we would suggest that this County Council is not taking full advantage of its Legislative Power in so far as Education is concerned.

That in our desire to cut down on the time of our monthly Sessions we are thereby slighting this important matter of Education and it is very rapidly passing completely into the hands of the Provincial Government, and will ultimately be another good reason

for consideration. Each Reeve and Deputy Reeve of a Municipality should then take these problems home to his own Board of Trustees for discussion and when he returns to the next Session of the County Council he will be able to intelligently discuss these problems as far as they concern his own Municipality. There were many questions of interest brought forward during the three days of the Convention, but owing to the fact that your delegates had heard no advance local discussion on these matters, it was impossible to know how this Council as a body would receive them and therefore your delegates could take no part in the vote. (County and Township Trustee Boards).

We would say that out of the turmoil of the whole Convention there has issued the fact of Government Re-

sponsibility for all ultimate decisions,

and Premier Mitchell F. Hepburn has announced the personnel of a Com-

mittee to conduct an enquiry into the

cost of primary and secondary Educa-

tion and many other matters relative

to Education. The Committee is as

follows:

Duncan McArthur, Deputy Minister

of Education, Chairman.

Dr. George F. Rogers, Chief Inspector

of Secondary Schools.

V. K. Greer, Chief Inspector of

Public and Separate Schools.

E. L. Longmore,

E. C. Desormeau, Sec. Trans. Separate School Board of Ottawa.

John Sturt, London, Clerk of Middlesex County.

R. B. Paton, Sec. of Public School

section in South Dunfield and of the

St. George Con. Sch.

In conclusion we would suggest that this County Council is not taking full advantage of its Legislative Power in so far as Education is concerned.

That in our desire to cut down on the time of our monthly Sessions we are thereby slighting this important matter of Education and it is very rapidly passing completely into the hands of the Provincial Government, and will ultimately be another good reason

ANNUAL W.C.T.U. CONVENTION WEDNESDAY, JUNE 5th

The annual convention of the Lincoln County Women's Christian Temperance Union will be held at Jarrow Station, on Wednesday, June 5th at 8 a.m. standard time. There will be three sessions, morning, afternoon and evening. All members and interested friends are welcome.

Since the officers of the Grimsby Union will be attending the convention, the regular meeting will be postponed until Wednesday, June 12th.

why County Councils should be abolished. Do we want to make our whole system of Education simply one of the functions of the Provincial Government and completely administered and financed by the Province? If we do let us say so. But before this step is taken let us make every effort to seriously consider all that is involved in such a step. We have in mind that the time may come when Boards of Trustees will be a thing of the past, and our teachers will be hired and sent to our schools through a Government Bureau established for that purpose and many other changes of an equally objectionable nature.

Therefore, let us put our house in order and we as a County Council give our educational problems a little more time for honest serious thought.

LESS WHEAT FOR PRAIRIES

More Of Coarse Grains Sown Because Of Late Season — Moisture Is Good

Winnipeg.—A 16 per cent. reduction in wheat acreage, the best moisture conditions in years, and a growing season 10 to 20 days later than usual were shown in the first Winnipeg Free Press crop report of 1935.

CONDITIONS GOOD.

Not for four or five years have moisture conditions been as satisfactory in the "dry" areas of the three Prairie Provinces as this spring, says the report, penetrating to a depth of 18 to 24 inches, enough for immediate needs.

An acreage reduction of 10 per cent. was estimated, chiefly in the dried-out areas of southwestern Manitoba, southern and central Saskatchewan, northern Saskatchewan and north-central and northern Alberta. It was estimated the acreage needed to wheat would be reduced 2,229,500 acres, from 23,254,500 to 20,925,000 acres.

300 POINTS CHECKED

The report, based on information from 300 strategic points, was compiled on May 15 conditions.

Coarse grains, the report continued are taking the place of wheat, particularly in the northern areas, due to lateness of the season.

Wheat seeding is practically completed in Manitoba, the report says, and, with the exception of northern districts, most of the coarse grains seeding had been done.

The percentage needed varies widely in Saskatchewan. About 70 per cent. of the entire wheat crop is seeded, with crop district three in the south the least advanced, and crop district five in the east-central the furthest advanced.

Wheat seeding in Alberta was reported 55 to 60 per cent. completed. A much larger acreage of coarse grains is indicated generally over the province.

STATEMENT ISSUED ON FARM FATALITY

Hydro Official Cites Warnings Issued to Rural Consumers.

Toronto.—In a statement issued in connection with the accidental electrocution of Robert Irwin and Malcolm McKay on the Irwin farm in King Township, R. F. Jeffrey, chief municipal engineer of the Hydro, points out that in all cases where primary services are installed, the rural consumer is warned that those wires carry high voltage, 2,000 volts or 4,000 volts, and that it is dangerous to touch or come near these wires.

"He is also warned that all trees and structures must be kept at a safe distance from the line," Mr. Jeffrey says. "On investigation it was found that at the time of the accident, four men were working at a deep well pump on Mr. Irwin's farm, removing steel rods from the well. The last rod which was being removed from the well by Mr. Irwin, was longer than the others and came in contact with one of the high voltage wires of the electric service pole line which ran past the well. This apparently caused the instant death of the two men."

"It was quite apparent that the late Mr. Irwin was familiar with the danger attending the removal of these rods as, during the past winter, repairs were made to this deep well pump which necessitated the removing of the rods. At that time precautions were taken to see that the rods did not come in contact with the high voltage wires. For some unknown reason, this precaution was not taken at this time."

Overseas Trade Better in Britain

Imports And Exports in April Best For Month Since 1932

London.—British overseas trade in April showed the highest imports for any April since 1931, and the highest exports for any April since 1932, it was revealed last week.

As against the previous month, however, April's imports showed a decrease of £565,000 (about \$3,230,000), while exports dropped by £2,742,000 (about \$14,500,000).

Compared with April of 1934, last April's imports increased by £5,517,600 principally in food, drink and tobacco, and articles wholly or mainly manufactured.

Nearly all of the £2,909,000 increase in exports over April, £131,000, was in articles wholly or mainly manufactured.

"The danger to constitutional self-government is quite as great from the reactionary right as from the radical left,"—Glen Frank.

Foreign Trade Up 8 Millions

April Figures For Canada Show Export, Import Gains — Revenues Increase.

Ottawa.—Canada's foreign trade during April 1935, had a value of \$74,900,071, compared with \$66,861,017 for the same month last year, according to statistics issued last week by Hon. E. C. Matthews, Minister of national revenue. This was an increase of \$8,038,754.

Exports increased from \$32,016,815 in April a year ago to \$38,294,387 last month. Imports rose from \$34,814,498 to \$36,603,734.

Of the 12 commodity groups seven showed increases and five reductions.

Exports of wheat rose in value from \$2,350,319 to \$4,287,585; fish, from \$626,913 to \$1,020,431; furs, from \$544,931 to \$623,479; cheese, from \$28,126 to \$35,036; newspapers, from \$5,319,708 to \$5,367,773; automobiles and parts, from \$1,692,613 to \$3,044,539, and unmanufactured nickel, from \$2,446,066 to \$2,724,845.

Declines were registered in wheat flour, which dropped slightly from \$1,147,681 to \$1,015,528; meats, from \$1,782,964 to \$1,561,181; planks and boards, from \$1,217,914 to \$1,198,618 and partially manufactured copper, from \$2,122,795 to \$1,991,321.

INCREASE IN REVENUES

An increase of \$452,002 in federal revenues for the month of April was noted. Customs and excise receipts last month amounted to \$12,388,768 compared with \$11,935,165 for April 1934.

A small decrease of \$21,267 in customs revenues was more than offset by the substantial gains of \$87,477 in excise taxes and \$144,487 in excise duties. Bundry collections also rose by \$12,956.

The following figures show the comparative statement for the month, the receipts for April, 1934, being given in brackets: Customs duties, \$5,598,469 (\$5,619,737); excise taxes, \$3,711,926 (\$3,624,478); excise duties, \$3,819,457 (\$2,585,000); bundry collections, \$6,914,945 (\$4,978).

Belgium Preparing For Future Attacks

Sure To Be Invaded In War, Visitor Says

MONTREAL.—Belgians know that if there is another war they will be invaded, whether they are belligerents or not. Hence they are preparing to withstand attacks in the future, according to M. Etienne Octave, lawyer of Brussels who has spent the past month investigating company law in Canada and the United States.

"We are arming in Belgium just like in any other European country," he said. "We believe though that Germany will not start another war.

Hundreds of persons probably would die and countless others would be seriously affected.

"It, according to Dr. Tandell Hennet, our professor of applied physiology at Yale, international authority on war gases and co-inventor of the gas mask, which saved untold lives in the World War, the result would be small in comparison to the casualties yearly from inhaling dust in industry.

Dust in such industries as tunneling, drilling hard rock and the use of asbestos, he said, causes hundred of cases of silicosis every year. Tuberculosis frequently develops, resulting in death or permanent disability.

"If Americans would pay as much attention to equipping the dust protection industries with proper ventilation," he declared, "where it is possible, and with masks where it is not possible as civilians now give to worrying over improbable gas attacks, thousands of lives would be saved."

Year of gas in war, he said, has been greatly exaggerated. He pointed out that such attacks on London demonstrated on several occasions the weakness of gas as an offensive weapon. The only casualties were a few blisters.

Silo Design

Aids Farmers

Constructs Trench Scheme For Total Expense of But \$40

Shire, Tex.—J. E. Neason, Grimes County farmer, has designed a trench silo to prevent losses on un-drained land.

His method of construction provides a special drainage system for the silo and he predicts that farmers will save thousands of dollars if they copy it.

Neason solved the caving problem by sealing the sides with pine boards. He placed 16-foot oak poles in four consecutive rows and formed three bins by lacing wire netting along each row of poles.

He covered the silos with six inches of soil and constructed a dirt bank on the rim of the silo to prevent surface water from running into it. Wall sagging was reduced by this method.

On feeding, he expense only one section of the silo at a time, thus reducing sagging from exposure. Neason said the three-bin silo is equal to the ordinary trench silo 120 feet long, 10 feet wide and seven feet deep. Capacity was 121 tons.

Total expense of construction was approximately \$40.

Canada Behind In Its Botany

Dominion Gardens Are Advocated For More Study

Edmonton.—Founding of botanical gardens throughout Canada is necessary and both cultural and economic advantages could be derived from such institutions, H. T. Gossow, of Ottawa, told members of the University of Alberta Science Association.

"Canada is the only unit of the British Empire that is not well to the fore in botanical research," Mr. Gossow declared. "Economic value of such world famous gardens as Kew, in London, Eng.; and the establishment in Java of two of the world's greatest has been repeated, 'proven.'

British Columbia, Ontario and the Maritime Provinces were mentioned as the most suitable locations for Dominion gardens. Quebec is well to the fore in the study of natural life, the distinguished botanist said.

Color Photos

May Lead to Discovery of How Eye Pigment Inherited

Cambridge, Mass.—Color photographs being taken of the human eye at Harvard University here may lead eventually to discovery of how eye colors are inherited.

In experiments conducted by Edward Hertberg, graduate anthropologist student, the pigmentation and pattern of the eye are being measured by his apparatus. Previous optical data depended on the estimate of the observer, and no exact description was possible.

Scientists now hope to find a way to measure the color value of the photographic plates. This problem solved, they expect to discover the laws governing the hereditary transmission of eye characteristics.

Old American Expressions

"Raise Cain" is the original and correct form of this slang phrase, which means to create a disturbance, to start a quarrel or cause trouble to general, says Pathfinder Magazine. M. Scholz de Vere, writing in 1871, said that "when the ruddy is in earnest and his blood is up, he has a terrible term by which to designate the nature of his action; he raises Cain." This phrase is of American origin and has been traced back to about 1850. Early examples indicate that it first used in the West and probably alluded to the fact that Cain killed Abel. There is no evidence to support the presumption that the phrase refers to the cultivation of the plant known as cane and should therefore never be written "raise cane."

The Houseflies Vote

The eve of the annual Spring appearance of the common housefly seemed the right time for Professor Stanley Farron Freeborn of the University of California to report the color preferences of that ubiquitous pest.

It appeared that fly paper should be bright orange, a shade all flies like best; that table cloths should be pale green, the least liked color. Dr. Freeborn, specialist in sheep and poultry parasites, conducted his housefly balloting by exposing a big rectangular board divided into squares of different colors, counting the number of insects which alighted on each (without taking into account)

The vote: orange, 10,572; primrose yellow, 5,441; dark blue, 4,750; canary yellow, 4,459; carmine, 4,115; jade green, 3,819; light grey, 3,799; light blue, 3,480; aluminium, 3,426; light coral red, 3,361; white, 2,760; ivory yellow, 2,238; light green, 2,067. —T.M.

Activity was Good for Her Figure

Helped by "That Kruschen Feeling"

Her husband assured her that it was her age and that she could not expect to wear stock size now. He was evidently a believer in the ancient "fat and forty" legend. To-day she dismisses the idea with a laugh. But let her tell the story herself:

"I must tell you I had developed beyond the 'stock size.' My husband assured me that it was my age. One day I saw an advertisement and decided to try Kruschen Suits. That was last July. Now once more I wear a size 32. Besides which, I feel so much better, more energetic, and can do my work without that tired feeling."—(Mrs.) J. M.

Your figure will not develop a "middle-aged spread" if you keep yourself healthy and active with a daily dose of Kruschen. When you have taken Kruschen Suits for a few days that old incident armchair feeling begins to desert you. It doesn't matter if you are in the forties—the urge for activity has got you—and you're "stepping lively."

And, best of all, you like this activity—you walk a couple of miles and enjoy it—you thought you'd

never dance again, but you find you're getting as spry as ever—and you can wear the modern dresses with as much comfort as the young folks."

Get a 75¢ bottle of Kruschen (it lasts four weeks) and start right away to take a half-a-teaspoonful in a tumbler of hot water every morning.

all were not daunted in their effort to educate their children. An "emergency meeting" was called and one farmer offered to donate his granary for a classroom, others volunteered to plaster it, whitewash it, put windows in and equip it from the meager supplies of their homes. A teacher was engaged and sustained out of their restricted food supplies and school is going on. There are many like instances in these days of difficulty. Their churches are kept up in the same way. Ministers are cheerfully living on less than half their salary in masses and parsonages segregated in one or two rooms to save fuel expenses and are ministering to their flocks without thought of further comfort or remuneration, being sweethearts and light into homes where it is not for these ministrations might come gloom, discouragement and despair. It is hard to discourage a people used to vicissitudes. Such determination is bound to bring its own reward.

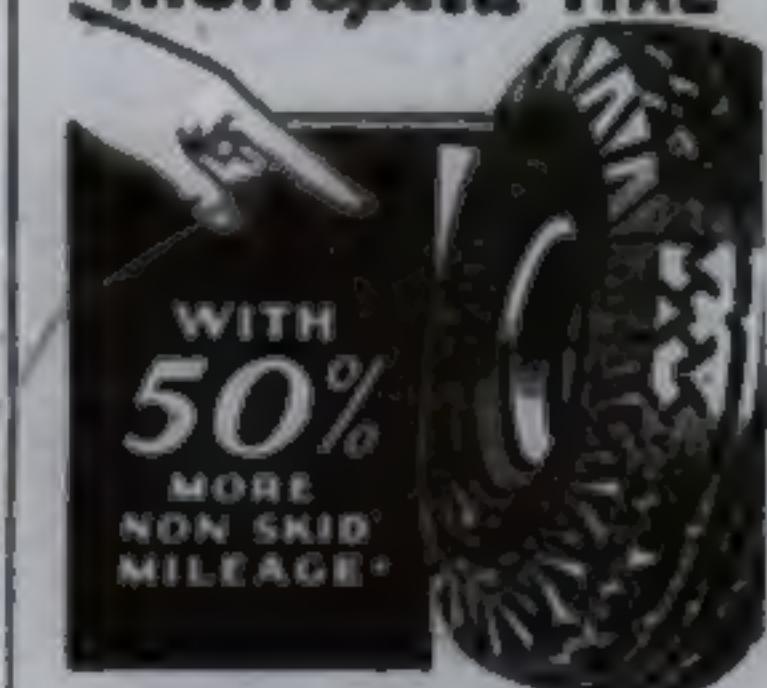

"Before a man can become serene he must cease to live for his sense or himself."—H. G. Wells.

The Splendid Spirit Of The West

It is a great spirit that obtains in the drouth-ridden, grasshopper devastated areas of the West. At Bergfield, south-west of Weyburn, the farmers unable to get further help from the Department of Education or from the municipal coun-

BEFORE BUYING Any TIRE

SEE THE New Firestone HIGH Speed TIRE

Firestone Tires have always been noted for their long, low cost mileage. Now, in the New High Speed Tire for 1935, you get 50% more Non-skid mileage*—at no extra cost!

Put these—the last word in tires on your car—see the nearest Firestone Dealer today.

*Compared with previous Firestone tire.

TOURIST TRADE SHOWS CLIMB

\$129,74,000 Is Estimated As Amount Spent For 1934 in Canada

Ottawa.—A substantial increase was shown in the total expenditure of tourists in Canada during 1934 when they were estimated at \$129,74,000 compared with \$117,124,000 in the previous year, the Dominion Bureau of Statistics reported recently. Overseas tourists were estimated to have spent \$9,455,000 against \$7,762,000 in 1933. Tourists from the United States by automobile spent about \$86,500,000 compared with \$72,126,000 in the preceding year, while those by rail and steamer were estimated to have spent \$34,246,000 against \$29,600,000 in the previous 12-month period.

Canadian tourist expenditures in foreign countries were estimated at \$60,901,000 compared with \$50,000,000 the previous year.

Canadian tourists to overseas countries was estimated at \$14,275,000 against \$13,982,000 in 1933. Canadian tourists by automobile to the United States spent approximately \$32,645,000 against \$34,611,000, while those by rail and steamer to the United States were estimated to have spent \$13,988,000 compared with \$12,387,000 in the previous year.

TO FARMERS

Dr. William J. Hale, research consultant, and Dr. L. M. Christensen, of the New York Chemical Foundation, told the 150 industrial, agricultural and science leaders meeting here that this concentration of alcohol manufacture would be the best way of accomplishing their announced program to restore American prosperity diverting the chief activities of farmers to supplying raw materials for industry.

TO FARMERS

Dr. Hale pointed out that different crops in parts of the country could be used for alcohol production.

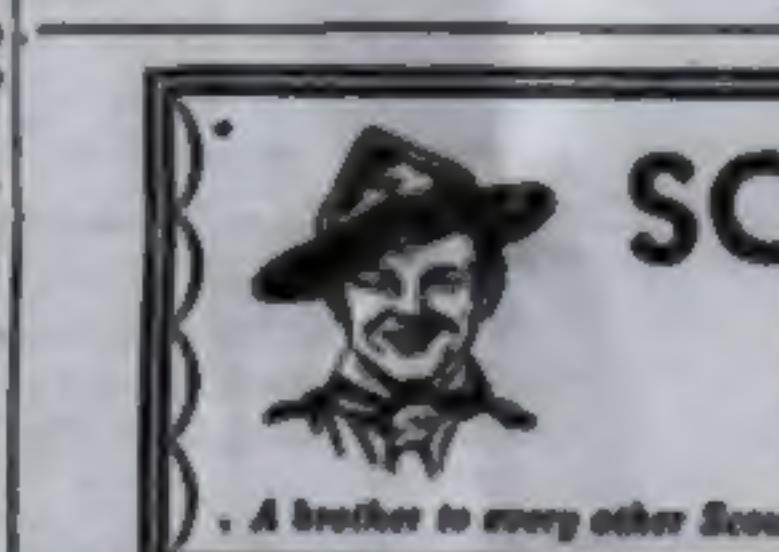

DIFFERENT SECTIONS

"In the south, it will probably be the sweet potato, in the north the potato and sugar beet, in the middle portion corn, fruits and the Jerome onions."

"By intensive use of new fertilizers, Dr. Hale predicted, the farmer could produce 350 g. tons of alcohol per acre at a cost per ton of ten cents per gallon."

OBLIGING 'PHONE GIRLS

From midnight to dawn telephone girls in the great New York hotels are pleasant buffers for loneliness. Strangers far from home turn to them for conversation in those often bleak hours of wakefulness while the rest of the city sleeps. One in the hotel room on Central Park south, known as Mickey, has become widely known for her soothing voice. She has a list of "regulars" in the hotel and former patrons who call her in moments of dolor, "Just to hear her voice."

A brother to every other Scout, without regard to race or creed.

Field Executive Bernard Cousins of Toledo, Ohio, and a party of Scout leaders of the 7th and 27th Toledo Troops were special guests at the big annual Parents' Night at Deer Park United Church of the 122nd Toronto Group. The party brought with them an invitation to the 123rd to camp this summer at the Scout reservation near Toledo.

In recognition of alertness and promptness in warning the occupants of a house which was discovered to be on fire, Scout Bryan of the 122nd Toronto Troop, was presented with a Scout knife at the group's annual Parents' Night.

For the presentation of a Group Charter to the new 3rd Barrie Scout Group, five "Seconds" of the 118th Toronto (Eglington Union Church) Troop accompanied Assistant Provincial Commissioner V. C. Irwin to Barrie.

Hamilton Scouts proved their right to be considered water activity Scouts by capturing first place in eight events of the Hamilton Scout Swimming Meet.

Since the first of the year the number of Scouts in Chatham, Ont., has increased from 100 to 200.

Each of the P. L. and Seconda of the 129th Toronto Troop had the responsibility of staging a item of the troop's annual Parents' Night at St. Crispin's Anglican Church Hall. Items included a soap loom, friction fire, compass, pulse knots, first aid, P. T. and badge making. Morse signalling was demonstrated by the new Radio Patrol.

Burlington, Ont., Scouts sponsored a boy's and girl's hobby show in the Town Hall.

As members of fifteen new members, the 1st Mimico Wolf Pack placed second in an indoor competition.

Charged with deserting the Pack and going in a "foreign jungle," Baloo Chico (formerly Baloo Chico) of the 6th Mississauga, N.B., Pack, was given a trial before the boys of the Pack. In spite of an able and eloquent defense, she was

ALCOHOL FORESEEN AS MOTOR FUEL

Seen As Chief Product Of Agriculture In America—Boon To Farmers.

Dearborn, Mich.—Alcohol, to be used as a motor fuel, soon will be the chief product of American agriculture, it was predicted at the concluding sessions of the agriculture, industry and science conference here.

BOON TO FARMERS

Dr. William J. Hale, research consultant, and Dr. L. M. Christensen, of the New York Chemical Foundation, told the 150 industrial, agricultural and science leaders meeting here that this concentration of alcohol manufacture would be the best way of accomplishing their announced program to restore American prosperity diverting the chief activities of farmers to supplying raw materials for industry.

The Week's News of The Surrounding District

BEAMSVILLE

A fire broke out in a barn on the property of Harry Brueghen, Ontario street, last Wednesday and the firemen had a hard fight for a time to hold down the blaze. It is thought that children and matches were the cause of the conflagration. Several hundred dollars damage was done to the structure.

Lincoln county council members and officials were the guests of Stanley and Mrs. Stirling for a fish dinner on Wednesday. Mr. Stirling is a former Beamserville boy and now reeve of Niagara township. It also being Mr. and Mrs. Stirling's wedding anniversary, his conference presented to Mrs. Stirling a silver flower basket. Warden E. B. Osborne extended the felicitations of all those present.

Mr. Richard Tallman, a former highly respected resident, died at her home in Aitkensburg on Tuesday, in her 70th year. Mrs. Eustace Moyer, Beamserville, is a surviving sister.

As a result of the efforts of Warden E. B. Osborne to spread the benefits of the grant given the Sanatorium by the county council, a chest clinic, sponsored by the M.H.O.'s of Clinton township and Beamserville will be held last week in the kitchenette. Dr. C. G. Shaver and two nurses from the sanatorium were present to give lectures and show slides of tuberculosis.

E. F. Ross sustained a bad cut on his right foot at Wednesday when an axe slipped and went deeply into the joint. Arteries and veins were severed and he suffered from severe loss of blood.

One farmer on the escarpment reports that he lost 2,000 tomato plants from frost a few night ago.

Farmers claim that poaching these days consists of taking pheasant's eggs out of their nests to take home to hatch. Well-filled nests under observation have been found cleaned out. A fine of \$50 is provided according to game warden.

Mr. Fitzgerald, a worker in Clinton township quarry, had his right foot badly crushed and bruised last week when a car partly loaded with stone rolled against his foot. Dr. J. B. Stallwood, who attended, stated that no bones were broken.

Miss Ethel Norris, A. T. C. M., of Hamilton, played several numbers Sunday morning at the service at the Baptist church. She was accompanied at the organ by Mrs. Robert Kemp, and at the piano by Miss Madeline Tester.

The Loma Davis chapter of the I. O. D.E. and the Beamserville company of the Girl Guides paraded to Knox United church on Sunday morning.

Beamserville last week showed its indifference to the C.C.F. when only 22 people turned out at the Community hall to hear John Mitchell, president of the organization in Ontario. The speaker failed the platform of the Liberal and Conservative parties, claiming that they were inadequate and were the same fundamentally.

The Women's Institute met last week at the kitchenette for the annual meeting. The election of officers returned most of the former holders to their 1934 positions. They will be:

Hon. president, Mrs. J. C. Thompson;

Mrs. J. A. Toohey; first vice-president, Mrs. C. Lyall; second vice-president, Mrs. Fred Jeffery; secretary, Mrs. R. A. Saunders; treasurer, Mrs. H. Shanks; district director, Mrs. H. Shanks; president, Mrs. C. H. Price; state directors, Mrs. C. Watterson, Mrs. W. Southward, Mrs. C. Tallman, Mrs. C. H. Prudhomme, Mrs. M. Thompson, Mrs. E. Hurst, Mrs. W. Kamp, Mrs. J. A. Sinclair, Mrs. H. Boutton; auditors, Mrs. J. A. Sinclair and Mrs. Fred Jeffery.

Many visitors and cottagers throughout the park on Victoria day. Swimming, fishing, lawn bowling and shuffleboard games were features of the day's activities.

Considerable excitement was caused in the afternoon when a fire started in the leaves and shrubbery at the east end lake front. The blaze is thought to have been started by firecrackers. Falls and low ledges from a number of cottages supplied sufficient water to subdue the flames. A flight of steps leading down to the lake shore was damaged.

Mr. and Mrs. Allen P. Thompson and family are holidaying at the Townsend cottage, Bell park. Mr. Thompson is manager of Belmont Manor, Belmont.

Emerson Goff of the Bank of Commerce, Hamilton, is holidaying at his home here.

Mrs. Beadle spent Tuesday and Wednesday in Toronto visiting friends. Mrs. Miller, teacher of the public school, took her pupils to the Empire Service, Community Hall, Beamserville, on Thursday. The 3rd class sang "Raise The Flag" very nicely and it was enjoyed by all present.

The Ladies' Aid met at the home of Mrs. Gordon Phillips on Wednesday and quilted two quilts. The next regular meeting will be at the home of Mrs. Harold Aston.

Mrs. E. Hurst is spending the week at Niagara-on-the-Lake, visiting Mrs. R. Gage.

A SKETCH OF THE LINCOLN AND WELLAND REGIMENTS

(Continued from page 1)

(Continued) visited the Falls and Lieutenant-Colonel Barrett furnished the escorting guard; a honour, of one hundred men and officers. This guard camped on the lawns of the Clifton House, where Prince Arthur stayed. This was a time of high festivity and merrymaking by the officers. Mr. Bush entertained the officers of the guard, at his home above the Falls, at a banquet in the Prince's honor. Another very brilliant affair was the officers' ball in the Clifton House, at which the Prince and his official retinue were the guests of honor. Lieutenant-Colonel Barrett being first officer of the 44th, welcomed the Prince and introduced each officer of the Battalion to him.

It was not until the year 1866 that any internal disturbances warranted the services of the Militia. At this time the North-West Rebellion took place and although the services of the 44th Battalion were offered to the government by Lt.-Col. Morris; it was found unnecessary to call upon any other militia units with the exception of those already in the field. During the next fifteen years nothing disturbed the usual routine of the 44th. Weekly parades being held at the different company headquarters and the yearly camp at Niagara, where the entire battalion could assemble as a whole.

On May 1, 1866 a contingent of the 44th marched across to the American side and acted as an escort to the 42nd, Separate Co. U. S. Militia. At this time United States was at war with Spain and the 44th were leaving for service in Cuba. The Canadian Militia were enthusiastically received by the American residents, upon their first parade in Niagara Falls, N.Y.

(Continued in Next Week's Issue)

AUTO HITS VERANDAH

Returning from a fishing trip, Clarence Sharpe, of Niagara Falls, fell asleep at the wheel of his car, with

WHEN the weather or household duties keep you indoors, and there are so many things you need and you simply haven't the time to go shopping . . . how handy it is to telephone. The grocer or butcher or dry goods store is always glad to deliver your order just when you want it. So, the telephone smooths your daily path and guards in emergency.

"THE *Value* OF YOUR TELEPHONE
IS JUST WHAT YOU MAKE IT"

the result that the vehicle swerved off No. 20 highway and crashed into the veranda of the house of Mrs. H. Farnum, at Fulton, a few miles west of Sharpe escaped with a shaking up.

All the others took their turn in the repair shop...

BUT WE NEVER LOST A MINUTE

Boys F. B. Parker, Chevrolet Truck Owner of Englehart

The above photograph was taken from a sketch of Mr. Parker's truck on the job.

Yes, Mr. Parker, Chevrolet Trucks Have a Habit of Staying "On the Job"

We decided to let a typical Chevrolet Truck owner write this advertisement for us. Because what says truck men more than anything else is THE EXPERIENCE OF OTHER OPERATORS. Read this letter from a man who KNOWS Chevrolet and Maple Leaf Trucks. Compare Mr. Parker's experience with your own. Ask yourself, are YOU getting the satisfaction that Chevrolet and Maple Leaf Trucks offer IN THE VERY LOWEST PRICE RANGE? And see your Chevrolet dealer before you spend a copper for new truck equipment.

A complete line of trucks from $\frac{1}{2}$ to 2 tons capacity . . . General Motors' trailer equipment makes it possible to haul 3 tons at the world's lowest operating costs. Liberal new Owner Service Policy . . . low delivered prices and easy GMAC terms.

When the work is very heavy and while they all took their turn in the repair shop we never lost a minute.

"We had considerable fun with one dealer here. He started comparing his $\frac{1}{2}$ ton truck with mine, said that the springs, drive shaft, axles and frame were just as heavy and strong as the Chev. However, after a moment's work with his tools he had put in four new springs and several other repairs and each time they lost about three days waiting for parts."

F. B. PARKER,
Englehart, Ont.
